

Can you draw these shapes without lifting your pencil off the paper or going over any line you have already drawn? Some of the shapes can be drawn like this, some can not. Before you start drawing, which ones do you think you will be able to draw without lifting your pencil or pen, and not going over any line you have drawn already?

Wearable Art Challenge

Look around the house and create a runway worthy outfit made of found items. Could you make a hat out of items in the recycling? A dress or shirt of newspaper or colouring book pages? How about a mask or superhero costume? Be creative and strut your stuff for the camera, taking pictures or video footage to share with your teacher.

Rube Goldberg Challenge

Create your own Goldberg challenge with toys, cartons, pipes, domino tiles, books etc. Take a video and share with your class and teacher

Make your own musical instruments at home

Fill up empty bottles or jars, or small boxes with loose materials like rice, stone chips, beans, poms poms, buttons, pasta, noodles etc. Make a tune. Challenge yourself to sing a song to the tune. Record it and share away! You are a rockstar!

Rainbow Art

Create a rainbow using things found around the house. For example: a yellow lemon, green leaf, blue toy car, purple sock, red tomato sauce. Place them in a circle in the correct rainbow order (ROYGBIV) and take a photo to share with your teacher.

Water Walking

You'll need six containers of clear water. Three with clear water, one with red food colouring. One with blue food colouring, and one with yellow colouring. Arrange them in a circle, alternating coloured and clear containers, and make bridges between the containers with folded paper towels. You will be amazed to see the coloured water "walk" over the bridges between the clear containers mixing colours.

Surface Tension

What You Need: black pepper, a plate or bowl, water, liquid soap. First, fill the plate with a thin layer of water, less than an inch deep is plenty. Then, sprinkle the pepper on to the water, covering as much of the water surface as possible. The more pepper, the more fun. Finally, dip your finger into the liquid soap. Touch the pepper and see what happens.

Create your own board game

- Design your board game using old cereal boxes/ cardboard from your recycling.
 - Choose some challenges.
 - Create and write the rules of your board game
- Play and have fun!

Create a fitness/yoga circuit and/or obstacle course

Time yourself - can you do it faster the next time? Too easy - can you make it more challenging? Too difficult - can you practise the movement you find hardest?

Song writing

Listen to your favourite song & write your own to the music.
